ABHIJITH V

Angular Developer

+91 9447861070 | venu.abhijith@gmail.com | <u>LinkedIn</u>

Professional Summary

Highly skilled Angular Developer with over 5 years of experience in designing, developing, and maintaining visually appealing, accessible, and scalable web applications. Proven ability to deliver high-quality code, optimize application performance, and collaborate effectively within Agile environments. A dedicated lifelong learner, committed to continuous growth and embracing new challenges, with up-to-date knowledge of Angular 19. Actively seeking a challenging new role where I can leverage my expertise to contribute to innovative projects.

Technical Skills

Front-End Development: Angular (knowledge up to version 19, hands-on experience up to version 14), JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, Responsive and Adaptive Design, RxJS
API Integration & Testing: RESTful APIs, Postman
Version Control & Collaboration: Git, GitHub, GitLab, Agile Methodologies (Scrum, Kanban)
Testing & Debugging: Jasmine, Karma, Chrome DevTools
Build & Deployment: Webpack**,** CI/CD Pipelines (Jenkins)

Work Experience

Angular Developer

Tata Consultancy Services - Kochi, India   Feb 2020- May 2025
- **Developed and maintained a reusable Angular component library**, reducing code duplication by 40% and accelerating development timelines.
- **Achieved a 50% reduction in server load** through advanced performance optimization techniques, enhancing application speed and reliability.
- **Led front-end development for the General Organization for Social Insurance project**, improving UI/UX and integrating backend services seamlessly.
- **Applied Agile methodologies (Scrum, Kanban)** to streamline development processes and enhance project delivery.

Projects

- **General Organisation of Social Insurance:** Designed and developed a scalable social insurance web application, reducing policy processing time by 30% and improving user experience through enhanced accessibility.
  Technologies Used: Angular 14, JavaScript(ES6+), TypeScript, HTML5, CSS3, SCSS, Responsive and Adaptive Design, RxJS
- **Enterprise Asset & Machine Management Platform:** Developed an internal system for monitoring and lifecycle management of critical oil & gas equipment. This project achieved a 60% reduction in load time and 99.9% uptime.
  Technologies Used: Angular 19, JavaScript(ES6+), TypeScript, HTML5, CSS3, SCSS, Responsive and Adaptive Design, ngRx

Education

Bachelor of Computer Application

Amrita Vishwa Vidyapeetham, Amrita University   Kollam, Kerala

CGPA: 6.8   2016-2019

Certifications

The Complete Javascript Course 2022: from Hero to Expert
Organization**:** Udemy
Issued Date: 2024

Achievements

On-the-Spot Award: Recognized for exceptional performance and critical contributions to a high-impact project at Tata Consultancy Services.

Beyond Performance Award: Awarded for outstanding contributions and significant achievements in project performance and team leadership.
